INTRO

My name is Jesper Brinch Korsbakke. I'm 28 years old and work as a frontend developer with interests in UX/UI design. I've worked with commercial website for small and large companies, made dashboards for visualization of data from IoT data collection and helped develop and update the search page for a Holiday Home rentals site. I have 7 years of experience in the field and I'm always ready to learn and create new things to widen my horizon.

EXPERIENCE

MANY DIGITAL - AUG. 2020 - JUL. 2021

Employed as a frontend developer with primary work in maintaining, updating and designing features for our team manager platform which our customers used to create content for their club/sports fans in the associated fan app.

SPAIN-HOLIDAY - JAN. 2019 - JUL. 2020

Employed as a frontend developer with primary work in maintaining, updating and designing features for the 13 websites with main focus on the search page. For the team I worked with I also occasionally took on the role of SCRUM master for our daily stand-up meetings.

INSERO A/S - JUN. 2017 - DEC 2018

Employed as a frontend developer with primary work in creating applications for visualization of IoT data.

Here is a small collection of the customers I've worked with:

Best Green A/S: Frontend implementation of a usage page of heating for their customers

TADAA!: Updates to the appearance of their registration flow for new users, amongst other tasks.

Insero A/S: Implementation of design for control of measurement points. Maintenance of website, updating Google Analytics and updating their registration form.

Scandi System: Expansion and maintenance of their self-service stands for municipals.

ITL WEBBUREAU - MAY 2015 TIL JUN. 2017

Employed as a frontend developer with primary work in developing commercial websites for small and medium sized companies.

Here is a small collection of the customers, I've worked with:

Energi Ikast: Implementation and maintenance of new visual identity on their website as well as integration with a self-service solution.

Pulsure: Implementation of new visual identity for their webshop

LANGUAGES

KNOW

I speak Danish and English fluently and I'm well above average in German.

LEARNING

I'm currently in the process of learning Japanese in my sparetime.

INTERESTS/HOBBIES

RUNNING

For the past 8-9 years, I have been actively running and currently running 2-3 times a week in Skanderborg Løbeklub. Ran my first marathon in 2018, 04:35:36.

RUNNING COACH

In the running club, I act as a trainer/coach and handles warm-up, pace groups and training sessions. I have taken the DGI Østjylland running coach course, and have completed the course with certificate. I also took the initiative to start a small "running club" at Insero.

PROJECTS

I also spend some of my spare time in creating applications and other projects to hone or learn new skills. I am currently working on a small website for 'TBK Dæk' and have also created the beginnings of 'BattleTrackr.io'.

EXPERIENCE (cont.)

IVERSEN TRADING - JAN. 2014 TIL MAY 2015

Began work as a multimediadesigner intern, where I got the offer to be responsible for everything marketing with primary work in updating the website as well as designing a new product catalogue.

MØLLERS - JAN. 2014 TIL MAR. 2015

Began work as an intern, with primary tasks in learning graphic design and the everyday life in a drawing office.
